## Opening hours

Monday until Friday 08:00 a.m. – 01:00 p.m.

For special requests, especially of pre-Linnean literature, please contact via E-mail.

[Getting here](#)

## Holdings and function

The library holds about 40.000 media units, incl. about 500 current journals. The main function of the library is to provide a primary source of literature for the scientific research staff, students and the public. There are no external loans: all material must remain on the premises.

## Access to holdings

The literature is classified according to the principles of the Bibliotheksverbund Bayern via [Gateway Bayern](#). For further details see the [OPAC search system](#) of the Ludwig-Maximilians-Universität München. We are not attached to interlibrary loan, and loan inquiries should be directed to the [Bayerische Staatsbibliothek](#). The former in-house periodicals *Mitteilungen der Botanischen Staatssammlung München* (1958–1991) and [Sendtnera](#) (1993–2002) are freely available online. The booklets of the running series [Arnoldia](#) publish schedae of exsiccatae.
